Woldson	208	16	16	Camera	Design studio	Variable Ventilation	Central air handler - 3, 4, 5
TOTALS		5255	2088				

New Code Capacity - Changed w/IBC enactment

Per IBC-2003, Table 1004.1.2 - Classrooms

20 NSF/person - old standard was 15 NSF/person. However, individual room capacity may be exceeded provided overall capacity requirements for exiting the entire building are met.

Notes:

- All systems are serviced quarterly. Most systems have also been checked this summer when air filters were changed.

- Air flow in labs at Hughes are all variable air flow, with the air flow based on fume hood sash position. The HVAC system was updated last summer in the south wing.

- HVAC systems in Herak, Humanities, and College Hall have been updated, in most classrooms, in the last few years.
